Market Review

April 2015

Equity Market

The KSE100 Index recouped its entire fall of a month earlier, closing April at 33,730, up 11.56% MoM, against a fall of 10.10% in March. Since the beginning of the current calendar year, the index is up 4.98%. Average volumes also improved to 201m shares, against 117m in March. Foreigners were net buyers of US\$34m, after hefty selling of US\$134m in the previous two months. Mutual Funds and NBFCs were also net buyers, while companies, banks and individuals liquidated their positions during the month.

The market remained uni-directional most of the month. The dip in stock prices during Feb-March had created attractive valuations gaps and investors came in to capitalize on this opportunity. This, along with unexpectedly low CPI figure for March, some very good quarterly results and positive news flow led the market recovery. Major highlights of the month include :

- Successful completion of IMF's 6th review, with the country receiving US\$500m at its conclusion.
- Successful completion of HBL privatization on April 10, with the government getting over US\$1b through this transaction.
- Chinese President visiting Pakistan and signing of 51 MoUs for US\$28b worth energy and infrastructure projects, being a part of a US\$46b projects to be undertaken by 2030.
- Engro Corporation offloading planned 7% stake in Engro Fertilizer shares through private placement.
- SBP proposing amalgamation of KASB Bank into Bank Islami at a token price of Rs. 1000.
- National Savings Schemes (NSS) profit rates being revised downwards in the range of 48-72bps effective Apr 1, 2015.
- GoP deciding to delay an increase in gas tariff until July.

March Quarter results

Amongst the top six sectors (in terms of index weight), oil and gas sector profitability dipped 29% YoY due to low international oil prices relative to a year earlier. Oil Marketing Companies also booked hefty inventory losses during the quarter, which dampened their profitability.

Commercial banks' overall profits were up 45% YoY, as they reaped the benefit of allocating significant proportion of earning assets in high yielding PIBs. Due to conservative lending practices, provisions also remained low in most instances.

Chemical sector profits were up 16% YoY. However, within the sector, performers were mainly fertilizer companies (excluding FFBL) and ICI, while the remaining sector posted negative growths YoY.

Cement sector profits improved 17% YoY on the back of improving margins due to low fuel and energy costs—their biggest cost drivers.

Food sector profits were driven by almost 4x earnings increase in EFOODS, and 77% growth in Nestle.

Inflation

CPI for April clocked in at 2.1%, higher than most market estimates, though it is lower than the previous month's CPI of 2.49% and the lowest since August 2003. Average inflation for the current fiscal year has dropped to 4.84% against 5.14% a month earlier. On a MoM basis, CPI has increased 1.3% driven mainly by an increase in prices of i) perishable food items, ii) housing, water, electricity & fuels and iii) education.

Money Market

Three T-bill auctions were conducted in April. Average yields dropped 78bps, 63bps and 60bps to 7.38%, 7.26% and 7.17%, respectively for 3-, 6-, and 12-months papers. A total of Rs. 487 billion was picked up in these auctions, against a target of Rs. 600 billion.

A PIB Auction was conducted on April 22. Cut-offs were reduced by 44bps, 33bps and 16 bps to 7.85%, 8.42% and 9.34%, respectively for 3-, 5-, and 10-year papers. No bids were received for 20-year paper. An amount of Rs. 36.1b was accepted against a target of Rs. 50b.

Yield curve in the secondary market has steepened, with PKRVs dropping the most in the 6-12 month bonds and longer maturity bond yields dropping the least. Benchmark 6-month KIBOR also reduced 59bps in April to 7.39%.

Managed Fund

Fund Objective

To maximize capital appreciation by investing in a balanced portfolio of wide range of shares, Government and other fixed income securities and bank deposits.

Fund Information

Description	Information
