ECONOMIC REVIEW

Inflation for Feb'20 clocked at 12.4% YoY, a welcome sight after last month's ominous high of 14.56%. On sequential basis inflation declined by 1.04%, led by sharp reversal in Food index (-1.99% MoM) following resolution of supply shortages along with reduction in gas tariffs; Utility index fell by 2.47% MoM. On the external side Current Account deficit (CAD) surged upwards in Jan'20 to USD 555 mn (+77% MoM), after being contained for the past four months, on account of deterioration in balance of trade; imports rose by USD 104 mn while exports and remittances fell by USD 57 mn and USD 190 mn respectively. Our foreign exchange reserves show steady growth and hit a twenty-five month high of USD 18.87 bn (+USD 211 mn MoM) in Feb'20, on the back of better currency management and absence of major debt repayments. On the fiscal side revenue collection stood at PKR 310 bn (+17.5% YoY) for the month of Feb'20 taking 8MFY20 tax collection to PKR 2.72 tn (+16.5% YoY) and missed the eight-month target by PKR 209 bn.

EQUITY MARKET REVIEW

The stock market plummeted in Feb'20 with KSE100 posting a loss of 8.8%, ending a four month long winning streak, to hit 37,984 points while average daily volumes dived by 38% to 153 mn shares. Likewise, KMI30 plunged by 11.4% to 59,433 points. Primary reasons behind such performance of the market include global market outburst over Coronavirus epidemic, abnormally high inflation for Jan'20, Pakistan's continued inclusion in FATF Grey list, and concerns over fiscal recovery of the economy with a notable revenue shortfall in sight. Foreign investors reverted to selling equities worth USD 56 mn in Feb'20 which was matched by local buying from Insurance (USD 56 mn) while Mutual Funds were the chief local seller with USD 24 mn. Sectors across the board plunged with E&Ps (-16.5%), Fertilizer (-8.0%) and Banks (-5.1%) as the principal driving forces behind such poor index performance. Going forward, Pakistan with forward P/E of 6.6x is trading at 45% discount compared to Asia Pacific regional average of 12.0x along with a dividend yield of ~7.2% versus ~2.9% offered by the region.

DEBT MARKET REVIEW

Interest in money market continued unabated in Feb'20 as PKR 2,251 bn worth of bids were received in T-bill auctions wherein State Bank of Pakistan (SBP) accepted PKR 609 bn against target of PKR 600 bn. Latest cut-off rates decreased to 13.39% (-4 bps MoM) for 3 month tenor while rising to 13.34% (+5 bps MoM) and 13.33% (+20 bps MoM) for 6 month tenor and 12 month tenor respectively. However, lacklustre participation was witnessed in PIB auctions as only PKR 118 bn worth of bids were garnered at higher levels i.e. 10-60bps above previous cut-offs. SBP accepted a mere 56 bn in fixed PIBs against its target of PKR 100 bn at 12.05% (+30 bps MoM) for 3 yr tenor, 11.40% (+21 bps MoM) for 5 yr tenor, and 11.00% (+10 bps MoM) for 10 yr tenor. There was similar interest in floaters with PKR 82 bn worth of bids received wherein SBP accepted PKR 60 bn at 50 bps over benchmark against target of PKR 50 bn. However, in the latter half of the month, anticipated soft inflationary readings for Feb'20, staff level agreement with IMF, strong PIBs demand by local players and weakening international oil prices due to Corona out-break pushed secondary market yields down by 4-16 bps across all tenors.

MANAGED TAKAFUL FUND
