ECONOMIC REVIEW

Inflation continues into double digits, exceeding market expectations and clocking in at 12.67%/1.30% (YoY/MoM) for Nov'19. The prime reason behind monthly increase in inflation is Perishable food items where prices registered a whopping 10.48% growth over last month. On the external front, Current Account posted a surplus for the first time in almost four years in Oct'19 of USD 99 mn, mainly driven by uptick in exports (+17% MoM) and remittances (+14.5% MoM) while import bill worsened by 9% MoM. This improvement in current account, along with foreign inflows in T-Bills, bolstered our foreign exchange reserves by USD 490 mn to settle at USD 15.58 bn in Nov'19. On the fiscal side, tax collection was flattish at PKR 334 bn for the month which takes collection for 5MFY20 to PKR 1,609 bn, an improvement of 12.2% YoY. In the latest Monetary Policy Statement (MPS), State Bank of Pakistan (SBP) maintained status quo for a period of two months, same as in the last MPS.

EQUITY MARKET REVIEW

Equities show no sign of slowing down; KSE100 posted a six-year high of 14.9% in Nov'19 to reach 39,288 points coupled with spike in average daily volumes of 60.5% to 304 mn shares. Major factors behind this strong rally are headways on the economic front with notable news of Current Account surplus, unchanged discount rate in the latest MPS despite uptick in inflationary readings, extending chances of a rate cut in the near future, and continuous foreign inflows in T-Bills crossing the USD 1 bn mark in FYTD stimulating from attractive yields and stability in the PKR-USD parity. Foreign sentiment improved, evident by inflow of USD 9 mn in Nov'19 after three months of selling while local banks were chief sellers with USD 53 mn and individuals led local buying with USD 41 mn. All sectors posted positive returns across the board with exceptional performances by Automobile Assemblers (+26.5%), Cement (+19%) and Power Generation (+18.8%). Going forward, Pakistan with forward P/E of 6.9x is trading at 52% discount compared to Asia Pacific regional average of 14.1x along with a dividend yield of ~8.1% versus ~2.5% offered by the region.

DEBT MARKET REVIEW

Money market continues to see fervour in Nov'19 as rates show no sign of being cut in light of the recent MPS which kept policy rate unchanged; a massive PKR 2,031 bn worth of bids were received in T-bill auctions against target of PKR 1,100 bn while State Bank of Pakistan accepted PKR 1,062 bn. Latest cut off rates increased to 13.59% (+29 bps MoM) for 3 mth tenor and 13.25% (+46 bps) for 12 mth tenor while remaining flat at 13.29% for 6 mth tenor. Similar levels of interest were present in PIB auctions with PKR 271 bn worth of bids being received against target of PKR 100 bn while central bank accepted PKR 120 bn in fixed PIBs at 11.80% (no change) for 3 yr tenor, 11.45% (-15 bps MoM) for 5 yr tenor, and 11.35% (no change) for 10 yr tenor. Floaters also saw healthy interest with PKR 128 bn worth of bids received against target of PKR 50 bn while central bank accepted just PKR 54 bn at 39 bps over benchmark. The absence of stimulus from MPS led to secondary market yields rising by 5-37 bps across all tenors.
