Equity Market Review

Enduring the lackluster performance of Feb'17, the benchmark KSE 100 Index shed 378 points (-0.78%) in March'17 to close at 48,156 points taking CYTD return to a meagre 0.73%. Market performance during the month was primarily determined by uncertainty surrounding the timing and nature of final decision on Panama Case and its possible impact on current political set-up. Beyond politics, the issue of retail financing made headway as the Securities & Exchange Commission of Pakistan (SECP), has approved changes in existing margin financing product. Other major positive developments for the month include addition of six Pakistani stocks (HBL, EFERT, NML, FCCL, SEARL, MARI) into FTSE World Asia-Pacific (ex-Japan) index and release of PSX sales proceeds.

Activity in KSE-All Share remained dull as average traded volumes stood at 246mn shares (↓30% MoM), while average daily traded value also declined to US\$114mn (↓30% MoM). Foreign investors remained net sellers (USD -22.8 mn), largely concentrated in Cements, while E&Ps witnessed inflows despite 7% MoM decline in oil prices. Cumulatively, CY17 and 9MFY17 net FIPI outflow now stand at ~USD 162.5mn and USD 482.7 mn respectively. The outflows for the month were effortlessly absorbed by local liquidity led by Companies (USD +29.5mn), Insurance Companies (USD +19.6mn) and Mutual Funds (USD +19.1mn) while Individuals (USD - 31.5mn) and Banks (USD - 16.1mn) remained major net sellers.

During the month, sectors that outperformed the benchmark were Tobacco (↑15.5%) and Refinery (↑9.9%). Other gainers include Insurance (↑6.9%), Chemicals (↑6.4%), Engineering (↑4.9%), Oil& Gas Marketing Companies (↑3.1%) and Auto-parts (↑1.2%). Apart from these Oil & Gas Exploration (↓4.8%), Cement (↓2.8%) and Power (↓1.1%) were major laggards during the month.

Money Market Review

During the month, State Bank of Pakistan announced Monetary Policy in which the committee decided to keep the discount rate intact at 5.75%. Prime reasons to maintain the discount rate were cited as concerns on growing CPEC-related imports, decline in exports and slowdown in remittances. Three T-bill auctions were conducted where SBP raised an amount of Rs. 828bn against target of Rs. 800 bn and bids received of Rs. 1,052 bn. The weighted average yields of latest auction for 3 months & 6-months clocked at 5.9718% and 6.0109% respectively whereas bids for 12-month T-Bill were rejected.

In the PIB auction for March'17, SBP picked up around Rs. 28bn against a target of Rs. 50bn and bids of around Rs. 70bn. The yield-curve has remained flat after an upward shift witnessed in Jan'17 as the cut-off yields for 3-year, 5-year and 10-year bonds remained stagnant at 6.4062%, 6.8993% and 7.9402% respectively, while all bids for 20-yr bonds were rejected.

The CPI Inflation increased 0.8% MoM to clock at 4.94% for the month of March'17 mainly due to 12.5% MoM/16.06% YoY uptick in prices of perishable food items. Core inflation remained flat on sequential basis to stand at 5.3%.

MANAGED TAKAFUL FUND

Fund Objective

To optimize aggregate long term risk adjusted return through capital appreciation, dividend and profit income by investing in a Balanced Portfolio comprising of Shariah compliant equities, equity mutual funds, Sukuks (Government and Corporate), deposits with Islamic Banks and Windows or any other approved Shariah compliant avenues.
