# Flexibility to Manage your Investments

We offer you the flexibility to manage your investments. You can either allocate the entire premium into one of the funds or split your premium between multiple funds that are available. Charges would be applicable from the fifth switch and will be deducted from the Cash Value/Unit Account prior to the switch.

# Investment Top Ups

You may have extra funds available with you at any stage. You can top up your regular investments under this plan by making ad hoc premium payments. These contributions would be invested in the Unit Account at the then prevailing offer price.

## **Combating Inflation**

Your Sum Assured and premium increases automatically every year along with your contribution towards investments, up to the limit specified by the company without any medical investigations. #### Continuity Bonus

For continuing your plan (without any breaks) for a period of more than six years, you will be entitled to Continuity Bonus. This will be in the form of extra units being allocated to your unit account each year. Continuity Bonus also increases, the longer you continue your plan. With these extra units, your investment fund will grow at a pace faster than what you are paying at.

## **Encashment before Maturity**

The future is unexpected and you never know when your circumstances will change and you may require funds before anticipated maturity of the plan.

- You can encash the plan at the full bid value of the units before maturity (without any penalties) after two years.
