## Withdrawal Option

Under UBL BetterLife Savings Plan, you have the option to withdraw your funds (either fully or partially) after the completion of two policy years provided you have paid premiums in full for two years.

- **Partial Withdrawal** - If you need to withdraw your cash for meeting some emergency needs, but do not want to surrender the policy, you can withdraw any amount after two policy years provided that the remaining cash value of your policy after withdrawal is greater than or equal to PKR 15,000/- (the residual cash value floor may be reviewed by the company) and two years premiums have been paid.
- **Full Policy Surrender** - After the completion of two policy years, given that two full year premiums have been paid, you can surrender your policy. At time of surrender, you will be paid the Cash Value of your fund(s) in full. However, surrender in early policy years may result in lower cash values.

## Other Benefits

- **Automatic Cover Maintenance** - After you have paid premiums for two full years, in case you cannot meet your premium payments, you will still be eligible for the life insurance cover, as long as your plan's Cash Value is sufficient to pay for charges made against your policy.
- **Top-Up Premium (Ad-hoc premium)** - Any given year you may want to invest additional contributions in your plan. UBL BetterLife Savings Plan allows you to add these contributions on top of your existing premium amount so that you can enhance your Cash Value.
