Determining your Life Insurance Benefit

You can select your sum assured between (5 to 25)* times your annual basic premium depending on your financial needs.

For example, if your annual basic premium is PKR 100,000 and you have selected a cover multiple of 20. Your Sum Assured would be $100,000 \times 20 = 2,000,000$.

* The range of cover multiples available to the policy holder varies with the age at entry of the life assured and underwriting decision.
