## CANCER PROTECTION PLAN

DON'T LET CANCER  
TREATMENT BE A BURDEN

Jubilee Life, in collaboration with Roche Pakistan Limited introduces Access Program to make high quality medicines more affordable under its "Cancer Protection Plan". Now patients and their loved ones can focus solely on recovery and health without worrying about the cost of medicine.

## **Cancer Protection Plan**

Cancer is one such critical illness that one wishes never to suffer. The menace not only causes emotional trauma and strains the entire family but creates a potential of financial crisis as well. The number of cancer cases being reported is on the rise. According to a study by World Health Organization, cancer is the second leading cause of death globally and in 2018, approximately 9.6 million people worldwide lost their lives due to this disease. It has also been recorded that around 70% of deaths occur in low and middle income countries.

The above statistics are high due to unhealthy lifestyle coupled with stress and anxiety but that's not all. Most people are deprived of quality care because of extensive cost of cancer treatment and other medical expenses which become difficult to pay after initial diagnosis, thus, resulting in more deaths. Nonetheless, this can be avoided if you plan ahead to ensure that a life-threatening disease such as cancer does not steal your hard earned savings.

Jubilee Life Insurance offers 'Cancer Protection Plan', a comprehensive plan which provides assistance in covering cancer related expenses at affordable cost so that you and your loved ones can be relieved from the imminent financial burden and focus solely on recovery and health.
