Investment Options

Jubilee Life currently offers you a choice of the following four funds. You can choose to invest fully in any one fund that suits your investment needs or split your premium between options available.

Jubilee Life Balanced Fund	A fund designed to generate competitive long-term returns with balanced allocation in Equity, Government securities and other wide range of allowable asset classes. It is classified as fund having medium risk profile.
Jubilee Life Government Securities Fund	A fund designed to provide sustainable returns over long term with exposure in Government securities, Government securities related instruments and bank deposits. It is classified as fund having low risk profile.

Your Premiums, by default, will be allocated to **Jubilee Life Government Securities Fund** of Jubilee Life Insurance. It offers competitive returns with minimum risk, over medium to long-term, by investing in a diversified portfolio of different money market & government debt securities and does not have any investment in equity securities.

However, you have the option to invest in any fund of your choice other than the default investment fund by signing the declaration form.

Your invested premiums are managed by expert investment managers and backed by premium financial securities to ensure optimized returns with manageable risk exposure. Your premiums will earn investment returns during the term of the plan. At the end of the chosen term, you will receive your accumulated cash value as a lump sum.

Flexibility to Manage your Investments

We offer you the flexibility to manage your investments. You can either allocate the entire premium into one of the funds or split your premium between multiple funds that are available. Subsequently, depending on the performance of funds, you can switch between funds. We allow you four free switches every policy year. Charges would be applicable from the fifth switch and will be deducted from the Cash Value / Unit Account prior to the switch.

Investment Top Ups

You may have extra funds available with you at any stage. You can top up your regular investments under this plan by making ad hoc premium payments. These contributions would be invested in the Unit Account at the then prevailing offer price.

Combating Inflation

Your Sum Assured and premium increases automatically every year up to the limit specified by the company without any medical investigations. You, of course, retain the right to decline this increase and continue your plan on the same terms and conditions as before.

Continuity Bonus

For continuing your plan (without any breaks) for a period of more than five years, you will be entitled to Continuity Bonus. This will be in the form of extra units being allocated to your unit account each year. With these extra units, your investment fund will grow at a pace faster than what you are paying at.

Withdrawal Options

Under Secure Life Plan, you have the ability to withdraw your funds (either fully or partially) after the completion of two policy years, provided you have paid premiums for two years.

- **Partial Withdrawal** - If you need to withdraw cash for meeting some emergency needs, but do not want to surrender the policy, you can withdraw any amount provided that the residual cash value of your policy after withdrawal is greater than or equal to Rs. 35,000 (the residual cash value floor may be reviewed by the company).

- **Full Policy Surrender** - After the completion of two policy years (given that two years' complete premiums have been paid), you can surrender your policy. At the time of surrender, you will be paid in full the Cash Value of your fund. However, surrender in early policy years may result in lower cash values.
